Subject: Fw: Dimock Sampling Plan - Draft Final for Review

Is your schedule open this afternoon or tomorrow morning? I'm trying to set up one or two conference calls (one with Rich Rupert and the other with R9). I reviewed the sampling plan and the parameter list is slightly different than what we provided so we need to clarify what is needed and which methods. In Section 10 - there is a list of parameters that require short TATs. We'll need analysts to be aware of this and confirm acceptance.

Also, we'll need to determine how the ARF process should work. This would be "brokered" out but internal to EPA so we might want to take a proactive approach on this (treat it more like non-SF even though it is SF).

The other piece that we need to work on for this involves looking at which parameters have an SOP on file and which are truly on-demand. This data will be scrutinized heavily and we need to make it clear up front what we are providing. Would you take a look at the tables in the pdf version of the plan and check with folks (or look up) which ones are accredited (Table 1), Table 2 (SOP available, etc.), and on-demand?

Mike Mahoney has reviewed the plan and will be forwarding comments to Rich later today. I will forward you that email as well.

Cindy

Karen and Cynthia,

Please find the final draft of the SAP for Dimock attached below. I am providing the main body of the SAP in Word so you may add comments as you wish. The tables are only present in the pdf version of the SAP.

We would like to finalize the plan by close of business Wednesday January 4. If you are able please provide any comments you may have by then. If you need more time please let me know and we will do all we can to accommodate your needs.

You may call me at your convenience using my mobile as listed below.

thanks
Rich

Rich,

Attached for your team's review, please find the most-recent Dimock sampling plan which incorporates elements of our discussions yesterday as well as that subject matter discussed with Dr. Ludwig. The .pdf contains the attachments. Please let us know if you have any questions. Thanks,

Joe Carter
